Phoenix, AZ -- Phoenix, AZ – Arizona Hispanic Republicans will not be supporting J.D. Hayworth, who was recently endorsed by ALIPAC. Hayworth has refused to reject the PAC's endorsement, and has refused to return to them their \$1000.00 donation.

ALIPAC is an organization whose members have embraced "Operation Wetback." ALIPAC cites OPERATION WETBACK on their PAC website. (Ryter, Jon Christian (2010, January 27). Operation Wetback. Retrieved March 5, 2010, from the ALIPAC site: <http://www.alipac.us/ftopic-186741.html>).

ALIPAC is also an organization that allows their members to make fun of and depict Mexicans as "taco benders" and "pepper bellies." (93 Camaro (2009, December 16). Ask A Mexican? Retrieved March 5, 2010, from the ALIPAC web site: <http://www.alipac.us/ftopic-181814-taco.html+bender>).

Hispanic Republicans will continue to reject hate-mongering and racism against all immigrants. Arizona Hispanic Republicans will continue to endorse and support strong capitalist politicians and not the politicians with a "dixiecrat" mentality. Hispanic Republicans believe in the Party of Abraham Lincoln, who was confronted with a difficult labor issue in his day – the Slave Labor issue. Republicans should continue to deal with our modern day immigration labor issue, too, via the National security way, the Capitalist way, and the humane way.

The Arizona Republican Party cannot afford to have their politicians embrace organizations like ALIPAC who use racial slurs such as "wetbacks," "taco benders," and the like, especially in our State of Arizona where the legal Hispanic population is 30%. Supporting these types of politicians will thrust the State of Arizona into a Democrat State, much like we recently witnessed in our neighboring State of New Mexico.
